Nuri Abdul-Rahman

Research Assistant, Department of Computer Science and Electrical Engineering, Baltimore, MD, USA
nurirahman1@umbc.edu — +1 (215) 740-9311 — www.linkedin.com/in/nurirahman1 —

RESEARCH INTERESTS

1. Operating Systems, 2. Computer Architecture 3. Computer Vision 4. Biochemical Engineering 5. Machine Learning

EDUCATION

University of Maryland, Baltimore County, Baltimore, MD, USA — August 2025 — May 2027
Master of Science in Computer Science — Cumulative GPA: 3.51/4.00

University of Maryland, Baltimore County, Baltimore, MD, USA — August 2023 — May 2025
Master of Professional Studies in Data Science — Cumulative GPA: 3.81/4.00

Temple University, Philadelphia, PA, USA — August 2017 — May 2022
Bachelor of Science: Sport and Recreation Management

PROJECTS

Interactive RNA Splicing Visualization — Baltimore, MD, USA
Research Assistant — March 2026 — July 2026

- Developed interactive visualizations for an RNA splicing prediction platform to help researchers interpret model predictions and sequence-level effects.
- Designed and implemented visualization workflows for model outputs, including sequence-level feature contributions, prediction scores, and mutation sensitivity analyses.
- Improved the research tool's usability by translating complex machine-learning outputs into accessible, researcher-focused visual interfaces.

SELECTED COURSES

Master's Courses

- Advanced Computer Architecture
- Advanced Operating System
- Design and Analysis of Algorithms
- Machine Learning
- Computer Vision

Additional Courses

- Big Data
- Data Structures and Algorithms
- Artificial Intelligence
- Deep Learning

SKILLS

- **Programming:** Python, R, Power BI, Tableau, JavaScript, Typescript, MSSQL (Microsoft SQL Server), MySQL
- **Software:** Git, Visual Studio, QGIS, Excel, Photoshop, Power BI
